

**Tony Zook**  
AVP Global Security  
Merck & Co., Inc.

Tony serves as Merck's Associate Vice President of Global Security and head of Merck's global Product Integrity program. This includes responsibility for the development and execution of the Company's strategy that protects Merck products from illicit actions, including counterfeiting, diversion, tampering, and theft. He holds responsibility for strategic and tactical operations related to Supply Chain Integrity, Investigations and Enforcement of Illicit Trade, and Forensic Services, as well as provides support to the advancement of Global Security's additional strategic priorities.

Tony is Merck's Subject Matter Expert on counterfeit and illicit pharmaceuticals and is a qualified Expert Witness on the subject. He is particularly interested in investigations and forensic analysis of counterfeit medicines, applications of advanced intelligence analytics to support these investigations, and collaborative relationships with regulatory and enforcement agencies who can best mitigate risks to patients.

Tony serves as Technical Advisor and on the Board of Director to the Pharmaceutical Security Institute, serves on the Board of Directors for the International AntiCounterfeiting Coalition and Rx-360, and is an active member of the Rx-360 Supply Chain Security Steering Committee, the A-CAPP Center Advisory Board, and the APEC Supply Chain Security Steering Committee. Tony holds a B.A. degree in Chemistry from Franklin and Marshall College, Lancaster, PA, and a Ph.D. in Analytical Chemistry from the University of Florida, Gainesville, FL.
